Township Bulletin

Parks & Recreation

The Township has developed a Park Master Site Drawing that details the Park and how the Township can further develop its amenities. In line with the new drawing and plans, new playground equipment has been installed at the main Township Park and down at Walker Lane. In 2016 the Township will be applying for grant funding to construct more trails within the Park. We also plan to continue updating the amenities and facilities of the Park throughout the coming years. Come play today!

Local Share Account

With \$50,000 from the LSA the Township was able to construct a new pavilion for the upper level of the main Township Park. It will be open to all in the Spring. In October 2015, the Township submitted an application to build a permanent restroom facility for the upper level of the Township Park as well as one for Walker Lane. ADA walkways will also hopefully be funded and installed next year.

Ongoing & Upcoming Projects

Bankson Engineering has completed our Act 537 Plan in hopes of bringing public sewage to the Township within the next few years. The Plan is currently under Pennsylvania Department of Environmental Protection review. Once we get approval from PADEP we can then move forward with applying for funding for the project. The entire Plan is available for resident review at the Township building if you are interested in learning more.

Drill Rigs

The drilling rigs in the Vaneal/Verner area are operations to plug old, existing wells that will interfere with the longwall mining ongoing in the same area.
