

Human Services

The Washington County Human Services Task Force is excited to announce the release of a Human Services App. The App was designed with a focus on consumer resources and ease of use. This one of a kind tool is leading the way to a more efficient and effective human service network within Washington County.

There is a wealth of information available from Aging Services to Veteran's Affairs and everything in between. The task force wanted to put assistance at the touch of your finger. The interactive App has active phone numbers, web links and even Google Map Directions to service providers.

The App is available for Android and Apple devices and can be downloaded now for free. Just search for Washington County Human Services and you will be able to install the App in seconds.
